

## True North PERFORMANCE LEADERSHIP FOR SENIOR TEAMS

*True North Performance Leadership is a revolutionary 6-12 month leadership development experience that transforms the ability of a senior leadership team to collectively and individually create BIG results in their organizations. Our approach is singularly effective because we combine the power of one-on-one executive coaching with the synergy of senior teams working together to shift their entire organization. Traditional leadership development focuses on developing leaders one at a time. Our program grows the individual leader in addition to raising the collective performance of the senior team. This is only one important distinction that makes TN Performance Leadership powerfully effective. Let us tell you more.*

### Benefits of the Program

**Masterful Leadership arrives with the integration of three Levels of Mastery**

- 1. Personal Mastery:** consciously creating extraordinary results in your life.
- 2. Interpersonal Mastery:** consciously co-creating extraordinary results with others.
- 3. Organizational Mastery:** consciously creating extraordinary results within organizations.

### Team Members Build Their Most Powerful Individual Leadership

1. Define and execute specific, measurable BIG goals.
2. Grow leadership communication skills that will inspire and align employees to produce those BIG goals and objectives.
3. Develop the confidence, courage, and know-how to be in full service to your organization

### Team Builds Their Most Powerful Collective Leadership

1. Leverage strengths of each team member to produce results greater than the sum of parts.
2. Build effective trusting relationships across the team so decisions and actions are integrated rather than determined in departmental silos.
3. Collectively lead your organization to greatness.

### Structure
